08:02:02  From  Kostantino Beltsis : Good day to you all. Blind, accessibility professional. It's a great day in Toronto. *smile*
08:02:24  From  Kevin Andrews : Hey, I'm from DC
08:02:27  From  Andy Tate : Hi from Sunny Leeds, Yorkshire in the UK!
08:02:37  From  Adrienne Grace : Good morning from Anaheim, California! (Amber, how's New Orleans? I've always wanted to go.)
08:02:48  From  Lucie Ossola : Hello from Rocklin, CA.
08:02:48  From  Christina Babcock : Hello from sunny and hot downtown Hamilton, Ontario!
08:02:53  From  Kerri Marvel : Hello from Sparks Nevada. 90 degrees and dry here in the high desert (4500' above sea level).
08:03:02  From  Craig Hayward : Hi from Hot and Humid, Durham, NC.
08:03:33  From  Marsha Schwanke  to  Hosts and panelists : Access On from cooler day (80s) in WI.
08:03:42  From  Christopher Dobson : Already warm and muggy in the west suburbs of Chicago!
08:03:48  From  Lisa Sundell  to  Hosts and panelists : Hi from Boulder Colorado … very cool here the past few days … 60 degrees F in July!
08:03:52  From  Rachael Zubal-ruggieri : Hello from Sunny Syracuse--I'm a long time user of WP, mainly for publication of an online journal
08:04:03  From  John MacDonald : Hello from San Diego, CA, and feeling guilty about our temperate mid-70s weather.
08:04:04  From  Craig Hayward : I plan to attend the Thursday morning session of WPCampus
08:04:36  From  Craig Hayward : Yes, it is. I'm doing the remote option
08:04:50  From  Peter Ingersoll : Hello from Connecticut. It's 89°F / 32°C sunny and humid.
08:04:51  From  Craig Hayward : Fyi, my brother went to Tulane
08:05:09  From  Christopher Dobson : Hi from Elgin, IL!
08:05:22  From  Peter Ingersoll : I love all the weather reports!
08:05:39  From  Marsha Schwanke : Attending WPCampus virtually.
08:05:49  From  Amy Mullins : Hi from Georgia
08:07:10  From  John Lockhart  to  Hosts and panelists : Hi from Edinburgh, Scotland
08:07:30  From  John Lockhart : Hi from Edinburgh, Scotland
08:07:37  From  Peter Ingersoll : https://2023.wpcampus.org/tickets/
08:07:53  From  Amber Hinds, Equalize Digital : Thanks, Peter!
08:07:54  From  Adrienne Grace : Going to give a shout out for the Accessibility Craft podcast. I love it!
08:08:05  From  Verawati Iskandar-Tipton : Hello from South Bend, Indiana
08:09:48  From  Christopher Dobson : https://2023.wpaccessibility.day/
08:12:32  From  Paola Gonzalez – Equalize Digital : Slides: https://docs.google.com/presentation/d/1URP-JmMNBMwg3oNjBGxkJaZgxTV2nB_rZwaVFKCkH8Q/edit#slide=id.g256cce0823b_0_1
08:15:38  From  Denise DeLucia  to  Hosts and panelists : who do you recommend you get to test assistive technology? or what is best way to test those?
08:15:57  From  Paola Gonzalez – Equalize Digital : I personally feel

more comfortable as an Author so that I know I can't break anything 😅
08:17:29 From  Craig Hayward : We have our office (Digital
Accessibility Office) and Digital Accessibility Liasions that
represent each department around campus
08:26:03 From  John MacDonald  to  Hosts and panelists : To what
extent should the severity of an accessibility problem be considered
in gating failing content?
08:27:41 From  Craig Hayward : It's case by case. You can still be
digital and want certain things printed out
08:28:19 From  Paola Gonzalez — Equalize Digital : @Craig: 100%
agreed.
08:28:30 From  Craig Hayward : That's me in a nutshell
08:29:08 From  Stephanie Hudson  to  Hosts and panelists : You did
it right!
08:29:37 From  Annie Middleton : we are using Bricks
08:29:43 From  Andy Tate : Bricks Builder
08:29:44 From  Gerson L : Other (Bricks and Oxygen)
08:29:46 From  Darren Denham  to  Hosts and panelists :
other=themify.me builder
08:29:54 From  Darrin Boutote : Avada Builder
08:29:55 From  D K : Bricks Builder — You end up with a MORE
ACCESSIBLE site than with native WP with blocks. period.
08:30:04 From  Jean P  to  Hosts and panelists : I use core only, no
page builder
08:30:18 From  Darrin Boutote : (Wish we didn't though.)
08:30:19 From  D K : Bricks Builder + Automatic CSS
08:30:38 From  Doug Rider : Bricks Builder
08:31:13 From  Peter Ingersoll : The poll worked nicely
08:31:24 From  Steph Sedgwick : Be as honest as you can! We can take
it :)
08:31:27 From  Gerson L : For Bricks users, how do you ensure an
accessible nav menu with dropdowns?
08:32:16 From  Craig Hayward : Before this I built sites using Drupal
08:33:26 From  Steph Sedgwick : I'm so glad you said this chart is
garbage. I don't agree with it at all! :D
08:33:37 From  D K : @Gerson The new Bricks Nav uses regular
components and yields accessible keyboard nav out of the box.
08:34:23 From  Darrin Boutote : That makes think it's sites powered by
wp.com, not self—hosted.
08:34:35 From  Stephanie Hudson  to  Hosts and panelists : Here
comes the Divi bashing... 😅
08:34:36 From  Andy Tate : No don't use DIVI!
08:34:42 From  Paola Gonzalez — Equalize Digital : Keyword:
"detectable" accessibility problems
08:34:42 From  Verawati Iskandar—Tipton : I'm assuming it is a
difference between being compliance and being accessible
08:35:40 From  Christopher Dobson : It will always need a manual check
and css fixes.
08:35:41 From  Craig Hayward : It's why I fought using CMS for years
when I worked in libraries

08:36:56 From  Andy Tate : Bricks Builder information on the builder accessibility https://academy.bricksbuilder.io/article/accessibility/
08:37:32 From  Craig Hayward : Before CMS I built sites that were responsive and accessible using basic tools
08:37:44 From  D K : NO AMBER — BRICKS BUILDER yields better accessibility than native WP. The statement should be "Every page builder sucks for accessibilit, EXCEPT BRICKS — AS IT IS BETTER THAN MOST ANYTHING for accessibility"
08:39:57 From  Andy Tate : If you use Custom Type Posts you can use templating to develop pages that format the accessibility so that users just input details and then the builder does all the hard work. This is how I am trying to use Bricks Builder

08:40:47 From  D K : @Andy Tate 👍🥂
08:41:27 From  Craig Hayward : Sebastian is a crab

08:41:53 From  Andy Tate : @D K Back at you 😁
08:43:08 From  Craig Hayward : Sometimes if you're a "stone ager" that's how you work
08:48:19 From  Eric Amundson  to  Hosts and panelists :
Accessibility Checker 🙂
08:48:28 From  Steph Sedgwick : Accessibility Checker ;)
08:48:50 From  Gerson L : ws form
08:48:57 From  Steph Sedgwick : I'm embarrassed to admit I've never actually tested my common plugins.
08:49:01 From  Adrienne Grace : Toast?
08:49:09 From  Adrienne Grace : Yoast?
08:49:14 From  Adrienne Grace : Auto-correct
08:49:16 From  Darren Denham  to  Hosts and panelists : We use an enterprise CMS, Cascade Server, so we can program some accessibility requirements into that
08:49:29 From  Stephanie Hudson  to  Hosts and panelists : WS Form is awesome and the owner is VERY responsive
08:49:55 From  Marsha Schwanke  to  Hosts and panelists : Is there a good accessible plugin or theme for newsletter and events
08:50:05 From  Paola Gonzalez — Equalize Digital : The events calendar
08:50:11 From  Paola Gonzalez — Equalize Digital : May be?
08:50:48 From  Deneb Pulsipher  to  Hosts and panelists : TablePress
08:50:59 From  Craig Hayward : Yes, yes
08:51:22 From  Craig Hayward : Talk to public library users, talk to students, talk to staff
08:51:31 From  Paola Gonzalez — Equalize Digital : https://www.nvaccess.org/download/
08:51:35 From  Craig Hayward : Deque University has a good set of them
08:51:41 From  Andy Tate : You get the hang of NVDA EVENTUALLY!
08:51:51 From  D K : I think the new https://piecalendar.com/ is accessible.
08:51:57 From  Paola Gonzalez — Equalize Digital : https://support.apple.com/guide/voiceover/welcome/mac
08:52:11 From  Peter Ingersoll : Like Gravity Forms, Fluent Forms has declared a commitment to accessibility

08:52:16 From  Craig Hayward : Work study programs.
08:52:34 From  Gerson L : @peter — Finally!
08:52:56 From  Marsha Schwanke : Using NVDA to Evaluate Web
Accessibility

08:53:03 From  Craig Hayward : Some states through their Dept of Rehab
and Voc services have programs to get people to work
08:53:55 From  D K : Pie Calendar is the very new solution by Jonathan
Jernigan and Elijah Mills.
08:54:01 From  Christopher Dobson : Thank you! I thought that this can
engage and provide experience and even maybe spark a passion in
students for accessibility.
08:54:17 From  Craig Hayward : Another resource for NVDA shortcuts —
https://dequeuniversity.com/screenreaders/nvda—keyboard—shortcuts
08:54:20 From  Andy Tate : @D K Interesting!!!
08:54:55 From  Gerson L : I raised the same issue with Ninja Tables
and it doesn't seem like they're interested in fixing it for now

08:56:57 From  Gerson L : that's nice
08:57:24 From  Christopher Dobson : That's very informative on the
Lang attribute!
08:59:31 From  Craig Hayward : Yes. Thank you

08:59:44 From  Eric Amundson   to   Hosts and panelists : So
unbelievable!
08:59:44 From  Craig Hayward : There have only been about 800K
lawsuits
08:59:53 From  S C   to   Hosts and panelists : Overlays are sold as
silver bullets, so to speak, and so many good intentioned people get
sucked into using them
09:00:08 From  Craig Hayward : Throw them away.
09:00:28 From  Craig Hayward : AFB and NFB have talked about this lots
recently
09:00:54 From  Craig Hayward : I had a screen reader user let me know
about the reasons why we shouldn't employ one
09:01:08 From  Paola Gonzalez — Equalize Digital : https://
overlayfactsheet.com/
09:01:18 From  Craig Hayward : If anyone needs a good justification I
wrote one to get us to NOT use one
09:02:30 From  D K : @Craig Haywa…, would love to read it. Is it
public?

09:13:51 From  Craig Hayward : Talk to you local Lions Club
09:14:05 From  Craig Hayward : Blinded Veterans
09:15:09 From  Craig Hayward : This is a good reason to contact
department of vocational and rehab services in your state
09:15:25 From  Denise DeLucia : thank you for suggestions
09:16:32 From  Jean P   to   Hosts and panelists : Can we save the
chat? I don't see the three dots…
09:17:11 From  Paola Gonzalez – Equalize Digital : @Jean: I usually
include the chat in the recap ☺
09:17:23 From  Craig Hayward : Easy – don't use Carousels!!!
09:17:28 From  Jean P   to   Hosts and panelists : Thank you!
09:17:29 From  Paola Gonzalez – Equalize Digital : Zoom Webinar
doesn't allow the ability for attendees to save chat
09:17:44 From  Deneb Pulsipher   to   Hosts and panelists : All
sliders should be cast into the inferno anyhow, so if screen reader
users aren't subjected to a working one, even better!
09:17:53 From  Barbara Miller   to   Hosts and panelists : Very
helpful examples; thank you!
09:18:09 From  Craig Hayward : Our scale is High, medium and low
priority
09:18:49 From  Andy Tate : Thanks for the presentation. Catch you all
next time!!😁
09:19:11 From  Craig Hayward : Agreed!!!
09:19:25 From  Craig Hayward : Our my favorite is "blank, blank"
09:19:52 From  Deneb Pulsipher   to   Hosts and panelists : Yep.
Inferno!

09:20:40 From  Craig Hayward : My favorite browser from years back was
WEbbie. Built by a group of student in the UK. You could turn off all
the graphics and get a better feeling for a screen reader user
experience
09:21:23 From  Craig Hayward : IF you want a really simple ease to use
podcatcher, Accessible Podcatcher is really good
09:22:58 From  Deneb Pulsipher   to   Hosts and panelists : I like
AblePlayer, but it's not been updated for years. Have you found any
problems with it?
09:23:00 From  Paola Gonzalez – Equalize Digital : Is it this one?
https://wordpress.org/plugins/wp-able-player/
09:23:44 From  D K : https://wa11ywp.org/terrill-thompson-very-able-

09:23:50 From  Craig Hayward : Nice!!!
09:25:04 From  Craig Hayward : This is great, because in 2012 we had
to work with a group of student to build an accessible audio player
for a site

```
09:25:23  From  Craig Hayward : Web site are begged, borrowed and
stolen
09:25:26  From  D K : AWESOME👍
09:25:27  From  Craig Hayward : Thanks very much
09:25:30  From  Karen Mazza : thank you!!
